ORGANIZATION

- 1- Official international competitions shall only be organised by national Federations that are members of C.I.P.S.. The organising Federation shall be officially responsible for the competition under consideration.
- 2- Only the members of a national Federation affiliated with C.I.P.S. who have fully paid their annual membership fees, or members of sport clubs that belong to the same Federation shall be allowed to participate. They shall be designated by their Federations; the anglers who belong to the teams of clubs or national Federations must hold the same nationality as their Federations.

There shall be only one (1) foreign competitor in each national Federation team, on condition that the following requirements are met:

- The application shall be forwarded by the Nation the angler wishes to represent;
- The application shall be complemented by a letter of the Sports Ministry of the concerned Country;
- The competitor shall have resided in said Country for at least 5 years.

Competitors shall always be able to prove their nationality by means of national IDs or passports.

All supporting documents shall be produced at the 1st team managers' meeting.

Any angler, who has already participated in a World Championship or in any international competition representing a Nation, shall not be allowed to compete for any other Nation.

Only teams that are members of national Federations shall be allowed to take part in World and Zone (Europe, etc.) Championships.

In order to apply to organize a Championship, the Nation under consideration must have participated at least once, over the previous three years, in the Championship that they wish to organize.

A preliminary programme shall imperatively be sent to F.I.P.S.e.d.'s Secretariat before the end of **October** of the preceding year.

With the exception of the World Fishing Games, F.I.P.S.e.d. **is officially tasked** with providing the printed material, certificates and rankings for the awarding of prizes for all Championships; therefore, the organizing Nation shall pay for all board and lodging expenses (room, meals and closing gala dinner) of the person performing such tasks. Said person's stay may begin on the eve of the first day of practice and end on the day after the closing dinner; F.I.P.S.e.d. shall pay for the relevant travelling expenses.

For all F.I.P.S.e.d. Championships, the organizing Nation shall cover all board and lodging expenses (room, meals and closing gala dinner) for two members of F.I.P.S.e.d.'s Executive Committee, **and for the person in charge of the rankings**; their stay may begin on the eve of the first day of practice and end on the day after the closing dinner.

The Nation organizing a World or Zone Championship shall be responsible for procuring the trophies, which will be paid for by F.I.P.S.e.d.; **the organizing Nation** shall envisage 3 trophies for the team competitions and 3 trophies for the individual competitions. F.I.P.S.e.d. shall refund a maximum amount of € 300 for 6 trophies. Such trophies shall feature a plate, carrying a "F.I.P.S.e.d." engraving or F.I.P.S.e.d.'s logo as well as the place and date of the Championship. An invoice will be required in order to prove trophy-related expenses. If the aforesaid provisions (concerning the plate/logo) are not complied with, F.I.P.S.e.d. shall not reimburse any money. F.I.P.S.e.d. shall provide the medals.

Programmes and invitations for all Championships shall only be sent to Nations that are members of F.I.P.S.e.d. (no invitations shall be sent to clubs or individuals).

- 3- Each C.I.P.S. member Nation shall be allowed to present one team only, composed of 5 anglers and 1 reserve who shall be nominated before the first draw.

No competitor shall be allowed to participate as an individual.

In the event of any injury during a competition, the regular participant may be replaced by the reserve member designated in official documents; it shall be possible to replace the fishing tackle. Angler substitutions shall be authorised by a Jury member.

- 4- Competitions shall be organized at watercourses, such as rivers, canals, or at suitable stretches of water, such as lakes etc.
- 5- The selected venue shall be as straight as possible; it shall offer equal fishing conditions for all competitors. The venue shall not expose the competitors or the spectators to any kind of danger.

One or more members of the Technical Commission shall inspect the venue that may be selected for a Championship, and said inspection shall take place at the same time of the year as to that proposed for the organization of the competition under consideration. F.I.P.S.e.d. shall pay for the travelling expenses (including flight and train tickets or car) of the Technical Commission's member(s), while the organizers shall cover all transfer costs from the airport or train station, and will pay for accommodation and meals. A report of the inspection shall be submitted to the Executive Committee of F.I.P.S.e.d. for evaluation and approval. The final decision on the approval or rejection of a venue by F.I.P.S.e.d. shall be communicated to the candidate Nation.

With regard to accommodation, participating Nations shall have two options:

- 1- Opting for the official accommodation proposed by the organizing Nation (optional). In that event, the organizing Nation shall clearly indicate the terms and conditions for the stay, including:
 - The half-board price per night per person for, depending on the number of persons sharing each room, regardless of the duration of the stay (full board cannot be mandatory); the participating Nation shall specify the dates of their anglers' stays (the term "official stay" used by many Nations, starting on Thursday, has never appeared in any regulations, and therefore should not be used);
 - The price of the closing gala dinner.

The accommodation terms proposed to the Nations shall first be approved by the Technical Commission.

2- Selecting their hotels by themselves.

If this is the case, participating Nations shall be required to communicate their accommodation-related choices to the organizing Nation upon registration (in the official registration form).

In both cases (participation through or without the help of the organizers), the registration fee shall amount to € 1,200, which shall include 9 closing gala dinners and 6 fishing permits for the whole duration of the Championship (training and competitions), insurance and sundry expenses such as gifts, cups, trophies, etc.

For the closing gala dinner, be it a dinner with table service or a buffet dinner, participating Nations shall be assigned a number of seats corresponding to the number of gala dinner seats they reserved.

If no details about the accommodation are provided by the deadline set by the organizers, the participating Nations shall imperatively have to book their accommodations themselves, and shall still pay the € 1,200 registration fee to the organizers.

Any Nation that undertakes to take part in a Championship by filling in the relevant registration form but does not show up, shall, in any case, pay € 1,200 to the organizing Nation. Nations failing to comply with this provision shall be forbidden from taking part in and organizing future Championships.

All Nations shall communicate their arrival dates to the organizing Nation at least one week before the first training day. **Any absent Nation (not showing up at the venue) not taking part in the last day of training shall be considered as a WITHDRAWING Nation and shall not be allowed to participate in the Championship (see penalties under article 34 § c).**

Together with the event programme, the organizing Nations shall provide a list of hotels, lodgings, rooms and campsites located within a 20-km range from the venue.

The organizers shall see to it that all registration forms are duly filled in and carry the mobile phone numbers of one delegate and one team manager. Addresses and emergency telephone numbers (police, fire-fighters, hospitals, etc.) shall be provided in the program leaflets.

The “ICE FISHING” World Championship will take place between the 15th of January and the 31th of March.

The angling positions shall be well defined so to be far from the spectators. **A special corridor for authorised people only (including the organisers, the reserves, the team managers, the press, and the Jury members) shall be created between the angler positions and the spectators.**

The official corridor shall under no circumstances be occupied by fishing tackle, except the reserve tools (augers).

The Rules shall only be changed at F.I.P.S.e.d. Executive Committee's annual meetings, based on the remarks that shall be sent in writing by National Federations to F.I.P.S.e.d.'s Secretary General.

DRAWING LOTS

- 8- Lots for each leg shall be drawn out at least 120 minutes before the beginning of the competition, under the scrutiny of the organizers, in the presence of the team managers or delegates of each team, and F.I.P.S.e.d. representatives.

For the two legs, the 5 anglers shall be attributed their sectors by drawing lots. For the second leg, the lot drawing order shall be reversed.

- 9- In streams, rivers and watercourses, sector A shall always be located downstream; in water bodies (lakes, ponds, etc.), sector A shall always be located to the left looking at the water body, and marking will run from the left to the right.
- 10- Team managers shall be given a back number for each one of their competitors.

Back numbers for the different sectors shall have different colours (except green or red); alternatively, they may be of a neutral colour with different coloured lettering for each sector.

Wearing the back numbers is mandatory.

GENERAL PROVISIONS

- 11-** The competitions shall only take place if the ice is at least 10-cm thick. The tolerated air temperature for the competitions shall be determined by the organizers, depending on the relevant climatic zones.

Competitors may reach the venue by their personal means of transportation.

- 12-** a) During the competition, only fishing with mormyschka (small lure's hook) will be permitted. During the competitions, the anglers shall be allowed to use one rod only, with a single mormyschka. The mormyschka's body maximum diameter shall not exceed 15 mm. The single hook located in the body of the mormyschka, colour and shape of the mormyschka shall be left to the choice of competitors and are not regulated. The use of other elements on the line and the hook shall not be allowed.
- b) The organizers shall provide each angler with two numbered flags, corresponding to their back numbers, in order to mark the holes they make in the ice (the holes shall be drilled throughout the whole ice layer). The flags shall be clearly visible to the competitors and the stewards.
- c) The composition of ground baits and baits shall be entirely of natural origin.
- d) Except for the sowing of baits and ground baits, baiting for the bottom shall only be allowed with chum dispensers (like valve feeder), which shall not remain submerged. Surface baiting shall only be allowed by hand. No surplus/left ground baits and baits shall be thrown into the water after training period and after the competition.
- 13-** a) The selected venue for the competitions shall feature, if possible, identical fishing conditions for all competitors (bottom topography, depth, aquatic plants). The venue shall be divided into 5 sectors (A, B, C, D and E), with at least 400 square metres per angler (example: 5 Nations = 5 anglers per sector = 2,000 square metre sector).

The venue shall be chosen by the organizers considering the conditions of the waterbody. The length of the sector's closest side to the bank shall correspond to the number of anglers in the sector – at least 11 metres for each angler (example: 11 Nations x 11 metres = minimum 121 metre-long sector).

The sectors shall be marked by posters carrying the letters A, B, C, D and E. The sector boundaries shall be marked by ropes or banners. The posters shall be visible to the competitors and the spectators.

- b) Only the team managers (2 per Nation), photographers, cameramen, stewards and Jury members shall be entitled to access the neutral zones. The Team Managers, photographers, cameramen shall only be allowed to enter neutral zones after the first signal indicating the anglers' entry into the sector. After being authorised by the general steward or by one of the assistant stewards of the relevant sector, the team manager shall be entitled to ask his competitor to get closer to the rope or banner and give him oral instructions. Neither the team manager nor the angler shall be entitled to trespass on the neutral zone.
- c) The Officials shall be allowed to move discreetly and noiselessly inside the neutral zones; they shall not disturb the competitors.

For the second leg, the sectors shall be located in a different area of the chosen venue.

- 14-** a) Before the first signal, the general steward of each sector shall check his sector's list of competitors; then, he shall carry out the checks on the baits and ground baits, which shall take place outside the neutral zone. After the baits and ground baits are checked, the anglers shall not be allowed to receive additional baits and ground baits. Before

entering the sectors and until the checks are carried out, the baits and ground baits may be prepared – outside the sector – by the angler or by a third person.

Each angler shall present for the checks the quantities of baits and ground baits envisaged in the program. In the event of non-compliance, the competitor shall be reprimanded - (under article 34a). The list of reprimanded competitors shall be presented at the managers' meeting. Should the violation be committed again during the second leg or during the following Championship, the competitor shall be disqualified due to "recidivism" (article 34b).

- b) Ground baits and baits shall be presented at the checks in "official size" boxes, or in graduated boxes carrying volume markings, provided by the organizers for a fee.

Aquatic larvae (jokers and bloodworms) may be presented in no more than two boxes (e.g. $\frac{1}{4}$ of bloodworms in a $\frac{1}{4}$ box and $\frac{3}{4}$ of jokers in a $\frac{3}{4}$ box). The boxes shall be presented closed, without using anything to keep them closed (e.g. adhesive tape may not be used to keep the lid closed).

Competitors shall imperatively be equipped with their boxes of the allowed size.

Competitors who do not carry "official size" boxes or graduated boxes carrying volume markings shall get one penalty point in the sector ranking (for instance, a competitor who does not have boxes at the end of the leg and ranks 5th, shall be given 6 points instead of 5. The competitor who ranks 6th shall, in any case, be given 6 points).

After the checks on their baits and ground baits, the anglers shall enter the neutral zone of their sectors.

The competitors may stand inside the neutral zone around their sector as they wish.

- c) The first signal shall mark the entrance into the sector (at least 5 minutes before the beginning of the competition).

The competitors will be allowed to enter their sectors and choose a spot to drill a hole. Each competitor shall mark such spot with a little flag. When entering the sectors, the blade or the drill tools necessary to make holes in the ice (drills, braces, ice-breakers, augers) shall be protected by a cover. The competitors shall only be allowed to remove the cover after they take their positions at the selected spots.

The use of engine tools is strictly forbidden.

In the sectors, the anglers shall be allowed to drill their holes as they wish (the holes of the same angler may lie one next to the other); on the contrary, anglers from different nationalities shall keep at least 5-metre distance between one hole marked by a flag and the next one. In the event of disagreement, the steward shall be tasked with settling the dispute amicably, or by drawing lots, always giving priority to the angler who made his choice by placing a flag (it is forbidden to throw flags in order to take possession of a spot); the first competitor who marks the selected sport with a flag shall be given priority.

- d) The second signal shall mark the beginning of the leg.

Competitors are allowed to fish and move freely in their sectors, and drill as many holes as they wish; however, as they are only allowed to mark two spots with two flags, they shall only fish in the two holes they marked. The spot marked by a flag shall be declared occupied as soon as the ice drilling operations start. Drilling shall be deemed valid as soon as the drill is put on the ice. The flags shall be placed 30 cm from the occupied hole, and shall be clearly visible to the competitors and the stewards.

The competitors are not allowed to leave their fishing tackle (augers, rods, fishes, ground baits, baits, etc.) near the free holes, except for their augers and

rod covers; all other equipment shall be placed next to one of the two holes where the angler is fishing (marked by his flag). The anglers shall not cover (hide) any free holes with their rod covers or augers.

It is forbidden to fish in a hole that is not marked by one's own flag. The word "fishing" includes fishing itself, as well as the ground baiting and drilling operations. During the competition, the augers that have not been put back into their packaging shall always be anchored to the ice, **vertically or obliquely.**

- e) The third signal shall warn the competitors that only 5 minutes are left before the end of the competition.
- f) The forth signal shall mark the end of the competition; after this signal, only the caught fish that is already out of the water shall be included in the fish count.

The acoustic signals for the different phases of the championship shall be short; in all cases, the beginning of the signal is taken into consideration.

- 15-** During the competition, the competitors are not allowed to receive any external support, except for medical help.
- 16-** If authorised by the stewards, the anglers shall be allowed to change their augers.
- 17-** Each sector shall be assigned a general steward and an assistant steward for every 5 anglers. General and assistant stewards are expected to have a thorough knowledge of the competition rules.

The general and assistant stewards (if possible, supported by a member of F.I.P.S.e.d.'s Executive Committee and/or by members of the International Jury) shall:

- a) verify the quantity of ground bait [all ground bait shall be measured when ready to use and without being pressed (wet or dry) including earth, gravel, etc. or any additional additives that are not harmful to the fauna and the aquatic environment], which shall amount to **2 litres** maximum. F.I.P.S.e.d.'s Executive Committee may modify said quantities, upon the proposal of the Technical Commission;
- b) verify the quantity of baits **used for baiting and hooking** (all baits shall be measured), which shall not exceed 1.5 litres, **1 litre of which of aquatic larvae (jokers, bloodworms etc.), including 0.50 litre maximum of bloodworms.** F.I.P.S.e.d.'s Executive Committee may modify said quantities, upon the proposal of the Technical Commission;
- c) collect any surplus/left of baits and ground baits after the checks;
- d) sign, together with their anglers, the weighing sheet carrying the weighting results.

- 18-** The **general and assistant stewards** are tasked with:

- a) Controlling the angling behaviour of the competitors they are responsible for;
- b) At the end of the competition, the stewards shall keep fish caught by the anglers under control and shall forbid access to the angling positions to any unauthorised person, until the weighing team is done weighing.

- 19-** The competitors shall abide by the rules on legal fish size limit in force for the competition (national rules). Such sizes shall be made public during the **1st** team managers' meeting (and it is the team manager's responsibility to ensure the competitors are informed).

Any caught fish that is smaller than the minimum legal size or is mutilated shall be seized by the weighing team, and the angler concerned shall be given a yellow card.

The catch shall be presented for weighing clean, and in identical bags to be provided by the organizers.

- 20- The competition shall take place by sectors in two legs of 3 hours each; In the event of a forced interruption (e.g. low temperature, **thunderstorm, demonstration, natural disaster, etc.**), the Jury may validate the leg, provided that it lasted at least 1 hour. The duration of the leg can be shortened by the President of the International Jury, in the event of bad weather conditions (strong frost). Should this happen, the decision shall be announced before the beginning of the relevant leg.
- 21- The catching of a fish is valid even if it is accidentally hooked outside its mouth. Deliberate foul hooking of fish is prohibited.

Using echo sounders **and underwater cameras** is prohibited, including during training.

During the competition, anglers shall not be allowed to use any auricular or walkie-talkie.
- 22- Competitors may keep and assemble as many rods as they wish, but they are only allowed to fish with one rod at any time.

When fishing, the rods shall be hand-held; it is forbidden to leave a rod unattended during the fishing operations.
- 23- Only the competitors shall be allowed to use small spears (small hooks) to take the fish they have already caught out of the water.
- 24- Competitors may use the sectors allotted to them as they wish; however, they shall move discretely and noiselessly. They shall not be allowed to enter the neutral zone.
- 25- Each competitor is expected to fully abide by the competition rules.
- 26- Should a member of the Jury notice or be asked to record the obvious infringement of paragraphs a) and c) of article 12 during a leg, he may call for checks on the line of the angler under consideration, without waiting for the end of the leg. Should this happen, the competitor shall not modify his line (destruction of the line, etc.). Should the angler refuse to undergo the aforementioned checks or should he modify his line, he shall be brought before the Jury.
- 27- During the competition, the stewards shall stand on the right or left side of the anglers, in such a way as not to bother the anglers, but still being able to control the catches of their competitors.

WEIGHING OPERATIONS

- 28- The weighing operations shall be performed by the general and assistant stewards of the relevant sector.

The general steward shall be responsible for weighing.

Another person shall write down the weights in the official record.

The other people shall be in charge of all other handling operations.

Should weighing take place at the venue, one scale shall be available in each sector. The containers used to weight the fish shall feature holes, so to allow water drainage. The weighing operations shall be performed in identical containers and without the bags.

Weights shall be recorded in grams.

When very small fish such as fry are caught, which do not register on the scales (scales scoring 0 grams), the fishermen shall be ranked based on the number of fishes caught, and then ranked after those fishermen who were ranked based on to the weight of the fish they have caught.

- 29- Until the arrival of the weighing team, each competitor shall stand near the hole where he was at the end of the fishing operations. The Fish, in the bags, shall be collected by one of the assistant stewards of the sector; after weighing, the catch will be at the organizers' disposal (unless otherwise provided for by relevant national rules and regulations).

After the end of the weighing operations in a sector, and after the weighing protocol has been signed, no weight-related complaints shall be accepted.

A € 100 deposit - **for which the F.I.P.S.e.d.'s General Secretary or his delegate shall issue a receipt** - shall complement any written complaint submitted to the Jury. Should

the complaint not be judged grounded by the Jury, the deposit shall be transferred to F.I.P.S.e.d.'s bank account.

All infringements and warnings shall be reported to the Jury, with the Jury being the only authority enabled to disqualify anglers. Any competitor who is imposed a penalty shall be informed immediately
